Peter –

We have received the first major deliverable under the CA UIC compliance plan. Based on a quick review it appears to contain the requested information however we will be giving it a more thorough review over the next 2 days. We hope to get a written response out in the next 10 days. We have developed a desk statement which defers until we have our written response. The State is doing some roll-out of the content today. We can go into some detail when we talk later this week.
